PROFESSIONAL SUMMARY

I am a Frontend Web Developer with expertise in building modern, responsive and user-centered web applications using HTML, CSS/SCSS, Tailwind CSS, JavaScript, TypeScript, React.js and Next.js. I excel at transforming UI/UX designs into clean, efficient and high-performance interfaces. With experience in API integration and component-based architecture, I am committed to writing maintainable code and developing scalable frontend workflows. I continuously enhance my skills to stay aligned with industry best practices and emerging technologies.

EDUCATION

Enugu State University of Science and Technology (ESUT) – Enugu State
Bachelor of Engineering (B. Engr) in Computer Engineering
Thesis Title: Learning Management System (LMS)
2017 – 2022

SKILLS & ABILITIES

Languages & Tools: HTML, CSS, SCSS, Tailwind CSS, JavaScript, TypeScript, Python.
Frameworks/Libraries: React.js, Next.js.
APIs & Data Handling: RESTful APIs, JSON, Fetch API, Axios.
Version Control: GIT, GitHub.
Soft Skills: Effective Communication, Team Collaboration, Critical Reasoning, Strategic Planning, Time Management, Willingness to learn.

WORK EXPERIENCE

Frontend Developer (Lead)
NOIR Labs
May 2025 – Nov 2025

- Led the frontend development of **Portal X**, a comprehensive web platform that aggregates events and opportunities for the community.
- Managed a complete platform redesign, transforming Figma UI/UX designs into a fully functional, responsive application using HTML, Tailwind CSS and JavaScript. Ensured an optimal user experience across all devices.
- Successfully deployed a stable version of the application using HTML, Tailwind and JavaScript to production, followed by the migration to a React.js architecture for enhanced scalability and maintainability.
- Developed core features, including an event aggregator, an event submission tool and an opportunity aggregator, which includes toggle functionality for users to switch seamlessly between Events and Opportunities.
- Implemented a secure user authentication system with dedicated login/signup pages and modal overlays for seamless in-page user experiences. Created a multi-step onboarding process to guide new users through account completion.
- Integrated an AI-powered chatbot designed to assist users in discovering their paths, providing personalized guidance for personal development and career growth.
- Built a reusable React component library to establish consistent UI patterns and accelerate development cycles.
- Collaborated closely with the UI/UX designer, utilizing Figma dev mode to ensure design fidelity and worked with the backend developer for seamless API integration.

Frontend Developer
Zwypa
Feb 2025 – May 2025
- Collaborated with UI/UX designers to implement web pages based on Figma designs, ensuring responsive and accessible interfaces.
- Created several pages for a Telegram mini app using React.js, closely matching the Figma designs for a pixel-perfect UI implementation.
- Built reusable and scalable React components, improving development speed and consistency across the app.
- Implemented best practices in component architecture, state management and clean code principles for long-term scalability.

Frontend Tutor
Codefest Institute of Technology (CIT), Ebonyi, Nigeria
2024 – 2025
- Led private and group sessions covering, HTML, CSS, JavaScript.
- Guided students through hands-on projects, providing feedback and personalized support ensuring practical skill development.
- Ensured we used the Project Based Learning (PBL) method for our classes for efficient result.
- Participated in regular train the trainer's sessions to stay updated with the latest developments in my field.
- Created a positive, engaging classroom environment that encouraged active participation and critical thinking in both STEM schools and one-on-one settings.

Python Tutor
Everest Online Academy (EOA), Akwa Ibom, Nigeria
2022 - 2023
- Conducted beginner to intermediate python classes for individuals and small groups.
- Developed lesson plans and interactive activities to enhance student's understanding of programming concepts.
- Providing clear and concise explanations, using real-world examples to illustrate how these concepts are applied.

Intern, Web & Software Development
Everest Online Academy (EOA), Akwa Ibom, Nigeria
2021 – 2022
- Gained foundational experience in Python, HTML, CSS and Javascript.
- Contributed to developing a team-based password generator project using Python.
- Developed responsive web pages.
- Practiced testing and debugging techniques in python.

VOLUNTEER EXPERIENCE

Prison Outreach Volunteer
Nigeria Christian Corpers Fellowship (NCCF), Abakaliki, Ebonyi, Nigeria
April 2024 – March 2025
- Provided prisoners with clear and transformative teachings on becoming children of God and developing their faith.
- I participated in outreach programs designed to support incarcerated individuals, helping to foster empathy and enhance communication skills.

Nigerian Innovative Engineers Scientists and Applied Technologist (NIESAT) CDS Group
National Youth Service Corps Community Development Service, Abakaliki, Ebonyi, Nigeria
April 2024 – March 2025
- Promoted transparency and ethical practices in the engineering sector.
- Conducted research and prepared reports to raise awareness.
- Organized and conducted sensitization for students in schools.
